

Field Trips to Animal Adventures!

#WayCoolerThanAZoo

4 Reasons Why We Are Your #1 Choice For Your Next Field trip

We sit on over 2.5 acres of land with a large amphitheater space for outdoor presentations, eating lunch or snacks, or for taking in the beautiful day. Animal Adventures also has over 5,000 square feet of indoor space available, where you can get up close with over 400 exotic animals no matter the weather. We guarantee that your visit will be....

Educational

When you visit Animal Adventures, you are going to hear and learn from our professional, animal handlers who work diligently every day to provide a clean, loving and hands-on environment for all the exotic animals residing with us.

Interactive

Animal Adventures and its handlers are proud to provide our field-trip visitors an amazing, interactive experience with the animals. Every member of your group will get the chance to interact with many of the animals. Of course, it is not forced, but highly encouraged!

Customized To Meet Your Curriculum

Are you studying, or would you like your group to learn about, a specific topic while you are here? We can tailor your visit to include as much or as little conversation as you'd like on topics such as Ecosystems, Adaptations, Climate Change, Life Cycles, and many more.... We can do this through tours or individualized presentations during your visit.
